Project Name	Personal Assistance for Seniors Who Are Self Reliant

IBM Watson IoT platform creation

The screenshot displays the IBM Watson IoT Platform interface in a web browser. The browser's address bar shows the URL: `qldvm.internetofthings.ibmcloud.com/dashboard/devices/drilldown/NodeMCU:12345?returnTo=/devices/browse`. The page title is "Device Drilldown - 12345". On the left, a sidebar menu lists various options: "Device Credentials", "Connection Information", "Recent Events", "State", "Device Information", "Metadata", "Diagnostics", "Connection Logs", and "Device Actions". The "Device Credentials" section is active, showing a table of credentials for the device "NodeMCU:12345". Below the table, a warning message states: "Authentication tokens are non-recoverable. If you misplace this token, you will need to re-register the device to generate a new authentication token." A link to "Find out how to add these credentials to your device" is provided.

Device Credentials	
Organization ID	qldvm
Device Type	NodeMCU
Device ID	12345
Authentication Method	use-token-auth
Authentication Token	12345678

⚠ Authentication tokens are non-recoverable. If you misplace this token, you will need to re-register the device to generate a new authentication token.
